

# Core Values

## *Compassion*

We treat our peers, partners, and each other with respect, understanding, and compassion on our journey of recovery.

## **TRUST**

We create a safe space and communicate with honesty and openness. We recognize the connection between trauma and addiction and act with appropriate awareness.

## *Choice*

We believe that each person has unique challenges and strengths which they know best. We value the power of self-direction in building sustainable recovery.

## **RECOVERY**

We welcome and support persons through all ages, stages, and dimensions of wellness. We build strength-based connections to achieve home, health, purpose, and community.

## **COLLABORATION**

We recognize and celebrate the excellence which comes from diversity. We openly share our views and life experiences through authentic conversations; creating a space where transformation is possible.

## *Affinity*

We show up with understanding and empathy based on our shared lived experience. We support and honor all pathways to recovery!

## **FUN!**

We believe that recovery should be fun and we will do all this together with as much laughter and joy as we can!
